A. Refer to technical information on tires.

EXAMPLE: Road: 622 x 25 // MTB: 29 x 2.25

B. Refer to technical information Easton rims.

EXAMPLE: 622 x 19.5

B. For conventional tire systems

(tubetype, tubeless ready, Road Tubeless, UST).

The tire pressure must stay within the tire manufacturer's specified pressure, but never exceed the rim maximum pressure rating specified by Easton Cycling.
